ACTIVE SPACE TECHNOLOGIES S.A.

 Portugal www.activespacetech.com

Business Development Manager

Active Space Technology is focused on thermal and mechanical engineering (from analysis, design, manufacturing to assembly, integration and testing), as well as on the development of scientific instrumentation for solar system exploration. AST provides also AIT and PA/QA services and manufacturing.

ADR ALCEN

 France www.adr-alcen.com

Sales Manager

ADR designs, produces and markets high added-value technical solutions. ADR products comply with the most demanding requirements in multiple application fields where high precision and high sensitivity are a prerequisite. ADR thus works in close collaboration with the main market actors in: defence & security, space, aeronautics, optics, medical, vacuum, scientific, nuclear...

AGIR INGÉNIERIE ET SYSTÈMES

 France www.agir-ingenierie-systemes.fr

Technical Manager

AGIR Ingénierie et Systèmes supports the sectors of industry, civil and military, offshore, oil and gas, transportation.

AIRBORNE AEROSPACE

 The Netherlands www.airborne.com/space

Business Development Manager Space

Airborne Space is leading the way in the engineering and manufacturing of composite panels for satellites. Through industrialization, digitalized automation and applying different production process technologies, we are making spacecraft components more affordable for our clients. This made Airborne market leader in the manufacturing of solar-array substrate panels in Europe.

AIRBUS GROUP - DATADVANCE

 France www.datadvance.net

Marketing Manager

Datadvance is specialized in software development for Process integration, Design Space Exploration and Predictive Modeling. Our solution is efficient in trade off phases as decision support tool for a systematic exploration of design space using fast approximation model and optimization.

ALLIANTECH

 Germany www.bishop-gmbh.com

Managing Director

We are the company from Hamburg, Germany. We are a team of 200 specialist in the field of Aircraft and Space industry globally. For space technology companies and their subsidiaries Bishop GmbH is supporting in Structural, Mechanical, Electrical, Electronics, Power & Thermal systems engineering.

C

CGC GROUND STATION

 United Kingdom www.cgctech.com

Sales Manager

CGC Technology is a custom engineering solutions provider with a diverse customer base in a wide range of market sectors. CGC provides custom solutions for challenging requirements for bespoke and special purpose industrial projects.

CISTELAIER S.P.A.

 Italy www.cistelaier.it

Marketing & Communication Manager

Cistelaier S.p.A. manufactures prototypes, small, medium and large series of a very wide range of printed circuit boards (up to 40 layers): double-sided, multilayer, rigid-flex, HDI (multilayer as well as flex-rigid) PCBs and boards realised with special materials.

CMS SPA

 Italy www.cmsindustries.it

General Manager

Manufacture and sale of CNC Machining Centres and other industrial equipment.

COHERENT ROFIN

 France www.coherent.fr

Industrial Sales Manager

COHERENT|ROFIN, merged in November, 2016, and became one of the world leaders of the innovation and the manufacturing of solutions laser industrial and scientific (laser CO2, laser Fiber, laser with ultra-short impulses) and turnkey machines.

COILCRAFT

 United Kingdom www.coilcraft.com

Business Developer

Coilcraft designs and builds critical-grade inductors, transformers and filters for military, aerospace, medical and other harsh-environment applications. Components are manufactured, tested and certified by Coilcraft. Custom screening to unique electrical and physical specifications is available.

COMEPA

 France www.comepa.com

Area Manager/ Space Division

Partner in the European electronics industry since 1965, COMEPA qualified a bi-metallic disk thermostat in 1974.

COMEX SA

 France www.comex.fr

Managing Director

COMEX simulates pressures from -4km to + 40km. We perform human tests in a unique hypobaric center. Material tests are performed in gas or liquid. COMEX is a pioneer in launching stratospheric balloons from sea. We also developed an unique space suit to train and simulate astronaut EVA at sea.

CS ROMANIA

 Romania www.c-s.ro

Ceo

26 years of experience in software development and maintenance for Aeronautics and Space, meeting industrial standards for sw engineering such as ECSS System and DO178B / ED 12B. Ground Segment - Data Processing Applications, Flight Dynamics Systems, Embedded sw, Information Systems and IT services.

CTOIC

 France www.ctoic.net

Ceo

Specialized consultancy in the Telecoms and Media space, with a specialization in CDN requirements.

D

DEJOND NV

 Belgium www.dejond.com

Director

Dejond is known as one of the leading European manufacturers of these blind rivet nuts that are exported to every continent of the world.

DSI DIGITALE SIGNALVERARBEITUNGSSYSTEME & INFORMATIONSTECHNIK GMBH

 Germany www.dsi-it.de

Head Of Marketing And Proposal Management

Electronics for Harsh Environments. Design, development, manufacture, testing and qualifying of Cryptographic systems, Payload Data Handling Units, On-board Computers, Instrument Control Units and Test equipment for space, air, ground and naval environments.

E

ECP ENTEGRIS

 France www.ecp-entegris.com

Sales Manager

ECP offers you the ultra-cleansing of your components.

EIFFAGE - CLEMESY AERONAUTIQUE SPATIAL ET TRANSPORT

 France www.fr.clemessey.com

Space Sales Director

Performing design, integration, installation and maintenance as well as improving systems and equipments in the fields of electrical and mechanical engineering.

ELECTRONIC CONCEPTS, INC.

 Ireland www.ecicaps.com

Marketing Manager

Design and Manufacture of Dry Film Capacitors

ENBIO

 Ireland www.enbiomaterials.com

Sales Manager

ENBIO is the inventor, and trustee, of a remarkable technology called CoBlast., which offers industry the potential to redefine the performance, function and value of metals across all sectors. We are a young and vibrant company, operating as a trusted partner in some of industries most regulated and demanding markets, developing and delivering next-generation solutions to meet ever increasing material challenges.

ETCHFORM BV

 The Netherlands www.etchform.com

General Manager

Etchform offers thin metal precision parts produced by photo etching and electroforming. Additionally forming, surface and heat treatments as well logistic services are offered.

F

FIDIA - FIDIA S.P.A.

 Italy www.fidia.com

Director

Aero-vehicle, Structures, Propeller / rotor, Machinery, High speed milling centers 'components alloys, High speed milling centers 'components complex alloys, 4 axis cnc milling, Other Leisure

FONDATION VAN ALLEN

 France www.fondationvanallen.fr

Sales Manager

Partnership Foundation of the University of Montpellier, the Van Allen Foundation supports the 1st Center Universitaire Spatiale Francais, where students are trained through the development of nanosatellites.

G

GEOLINK

 France www.geolink-expansion.com

Cluster Coordinator

GéoLink has become the main actor of the sector to deal with issues of attractiveness of territories and establishment of companies in France.

GLENAIR INC - GLENAIR

 France www.glenair.com

Marketing Manager

Electrical connectors, accessories and harnesses.

GRAFTON GROUP

 United Kingdom www.graftontechnology.co.uk

Customer Liason Manager

Grafton Group is an independent company operating in the Merchandising, DIY Retailing and Mortar Manufacturing markets in Britain, Ireland and Belgium.

H

HEICO - 3D PLUS

 France www.3d-plus.com

Sales Area Manager

Manufacturer and supplier of advanced high density microelectronic products and Die and Wafer Level stacking technology meeting the demand for high reliability, high performance and very small size of space electronics. 3DPLUS offers standard products, custom and semi-custom solutions. 3DPLUS products benefits from a large space heritage in numerous missions : Rosetta, Smart-1, Mars Express, Cosmo/Skymed, Terrasar, Sarlupe, Pleiades, Themis, Galileo, Sentinel, Bepi Colomb.

HTDS

 France www.htds.fr

Marketing Director

HTDS is specialized in high-technology optoelectronics : emitters (LED, IR sources, laser diodes, flash tubes) and sensors (photon counter, photodiodes, pyrodetector ...). We market a full range of optoelectronic components and OEM used in most application fields: aerospace, lighting, industry...

I

ICE CUBES BY SPACE APPLICATIONS SERVICES

 Belgium www.icecubesservice.com
Business Development

ICE Cubes Service is a simple and cost-effective way for your experiment or technology to fly onboard the International Space Station

INNALABS LTD

 Ireland www.innalabs.com
Head Of Marketing

INNALABS is a global provider of inertial sensors – accelerometers and gyroscopes for stabilization, control, navigation, and guidance applications in aerospace and commercial aircraft, marine and land, oil exploration and energy, automation and robots as well as transportation markets.

IREPA LASER (MEMBRE ASRC)

 France www.irepa-laser.com
Key Account Manager

Additive manufacturing metal, DED, large scale, from few cm up to 1.5m, Functionally graded materials, qualification of repair activities

ISOMATEX

 Belgium www.isomatex.be
Business Development Manager

ISOMATEX is the global leading producer of enhanced volcanic rock filaments. ISOMATEX's products are distributed under the trademark FILAVA™ and are composed of filaments with a diameter of less than 10 microns.

K

KENTA

 France www.kenta.fr
Co Founder

KENTA is a specialist of analog and digital radio-communication systems both for transmission and reception and in the MF/HF/VHF/UHF frequency bands. KENTA is also a key provider of Software Defined Radio (SDR) technologies for all industries.

KRATOS RT LOGIC

 USA www.rtlogic.com
Development Director

Satellite ground and test systems.

L

LECOTE SPACE LAWYERS

 United Kingdom www.spacelawyers.net
Lawyer

Lecote Space Lawyers provide niche legal advice to protect companies in the New Space Industry relating to the commercialisation of Space technologies and innovations

LISI AEROSPACE ADDITIVE MANUFACTURING

 France www.lisi-aerospace-am.com
Project Manager

Design and Manufacturing of 3D printed parts for Aerospace, Defence and Space.

M

MAGNESIUM ELEKTRON

 United Kingdom
Sales Engineer

Magnesium Elektron has led the magnesium industry since our company was founded in Swinton, England, in 1936. We have been involved in every aspect of magnesium metal, starting with primary production using the Pidgeon process, and then moving to ingot, plate, sheet, particulate, billet, extrusions and purpose-built fabricated forms. All types of magnesium alloys, plates, extrusions, pieces of foundries.

MATERION PRECISION OPTICS

 USA www.materion.com
Business Development Manager

Materion Precision Optics provides optical components for a wide variety of public and private space programs (Landsat, VIIRS, Sentinel 2, Proba V, MSL, ect...).

MBDA - MATRA ELECTRONIQUE

 France www.matra-electronique.com
Business Engineer

R&D and manufacturing of electronic embedded boards and equipments.

MICROCHIP

 United Kingdom www.microchip.com
Project Manager

SuperFlash is SST's patented and proprietary NOR flash technology. The SuperFlash technology and memory cell have a number of distinct advantages for designing and manufacturing flash EEPROMs, or for embedding SuperFlash memory in logic devices. SuperFlash technology is fully CMOS compatible and it does not impact any logic devices. This technology has been in high volume production for more than fifteen years. SuperFlash technology is the non-volatile memory of choice for embedded applications

MICROTEC GROUP AGORA INDUSTRIES

France

www.agora-industries.com**Electronics Sales Manager**

Groupe Agora is a leading IG which aims to develop a high added value projects including mechanical & electronic components : space mechanism & electronic devices : from design to device's delivery via manufacturing & AIT..

MU-TEST

France

www.mu-test.com**Sales Director**

Mu-TEST is the game changer in the Automated Test Equipment (ATE) world. Thanks to its revolutionary FPGA based system, Mu-TEST dramatically reduces Cost of Test (CoT) and Time-to-Market for Semiconductor activities (Test, Characterization, Burn-in, Reliability, FA) for complex application such D&A.

N**NASMYTH GROUP**

United Kingdom

www.nasmythgroup.com**Sales Manager**

Nasmyth Group offers complete end-to-end solutions working with our extensive global supply chain to offer quality services to each of our customers. Unrivalled capabilities, available from our complementary precision engineering and metal treatment companies, enable Nasmyth Group to provide solutions for a range of complex projects. As a global, market-leading company, Nasmyth is trusted as the strategic manufacturing partner for our customers, servicing a variety of complex industry sectors.

NATIONAL PHYSICAL LABORATORY

United Kingdom

www.npl.co.uk**Development Manager**

NPL's strategy is to deliver science with impact. It has an outstanding record of achievement since 1900 & has teamed with ESA & SMEs for many years.

NIMESIS TECHNOLOGY

France

www.nimesis.com**Business Development Engineer**

The multitude of Shape Memory Alloy (SMA) applications in all industrial domains requires to understand our interlocutors and to provide them with clear and precise answers. Nimesis Technology work since many years to adapt itself of requests and objectives of its customers in domains as diverse as medical, defence, or clock making and give them a quick technical and economic answer.

O**O.C.E. TECHNOLOGY LTD**

Ireland

www.ocetechnology.com**Ceo**

O.C.E. Technology has a small team of embedded system engineers. The team has been developing software tools for the SPARC-LEON range of processors. The company has an unusual mix of Java expertise and C/C++ expertise in an embedded systems environment.

OFFICINA STELLARE SRL

Italy

www.officinastellare.com**Coo**

Officina Stellare designs and manufactures optomechanical instrumentation for professional applications: optical payloads for Earth imaging satellites, SSA and debris tracking solutions, aerospace and defense applications, astroimaging.

OPTICS VALLEY - JENOPTec (MEMBRE OPTICS VALLEY)

France

www.jenoptec.com**Sales Manager**

Light amplifier and infrared vision. Connectors, location equipment. JENOPTec is a provider of fiber optic solutions in areas such as telecoms, FTTH, ADSL, industry, military, aeronautics and broadcasting. - In addition to its expertise in fiber optics and copper, JENOPTec offers vision and night vision military solutions but also GNSS test means

P**PENTACON BV**

The Netherlands

www.pentacon.nl**Project Manager**

Pentacon is the perfect partner for space vehicle developers and suppliers. We work together with different organisations on multiple projects for the design, engineering, contracting and delivery of Ground Support Equipment (GSE) and also the design and engineering of flight hardware.

PITCH TECHNOLOGIES

Sweden

www.pitchtechnologies.com**Marketing Manager**

Pitch Technologies is a leading provider of Open Standards compliant products, services and solutions for interoperable distributed simulation systems. Our products and solutions are being used by some of the largest and complex system for development, integration test and training.

POLYMEREXPERT

France

www.polymerexpert.fr**Business Assistant**

Innovation company dedicated to polymer-based materials.

POLYTEC FRANCE

France

www.polytec.fr**Marketing & Communication Manager**

Polytec is the market leader for laser doppler vibrometers, non-contact vibration measurement equipment, velocimeter laser speed and length measurement sensors. Our innovative solutions allow our customers to maintain their own technical leadership across many fields in non destructive testing (NDT).

PORCHER INDUSTRIES

France

www.porcher-ind.com**Sales Manager**

PORCHER Industries group is focused on technical textiles and composites high end for markets as civil and military aircraft & space industry, defence, automotive.

PRISMA ELECTRONICS

Greece

www.prismaelectronics.eu**Business Development Manager**

Prisma Electronics is a Greek SME offering Electronics Manufacturing Services with 20+ years experience in Space, Defense, Medical & Industrial fields. The Company is honored by CERN with the Gold Industry Award. Today, the collaborations include names, such as CERN, ESA, AIRBUS DS, SIEMENS.

R**ROMANIAN RESEARCH & DEVELOPMENT INSTITUTE FOR GAS TURBINES COMOTI (HEADQUARTERS)**

Romania

www.comoti.ro**Head Of R&D Department**

COMOTI integrates activities of R&D, manufacturing, testing and innovation in the field of aircraft and industrial gas turbines, high speed bladed machineries, air/gas compressors. COMOTI produces: power sets, centrifugal & screw compressors, gas turbine CHP, turbo blowers, superchargers, silencers.

RUAG SCHWEIZ AG - RUAG SPACE DIVISION

Switzerland

www.ruag.com**Sales Manager**

RUAG Space is the leading manufacturer of slip rings for space applications worldwide. Our reliable slip rings are at the heart of many mechanisms on board satellites, and they are also in demand for challenging applications outside the field of space travel and exploration.

S**SAPHYRION SAGL**

SWITZERLAND

www.saphyrion.ch**Aerospace Program Manager**

Saphyrion is a Swiss company specialized in the design and development of Space-qualified integrated circuits as well as instruments for GNSS data analysis. Business focused on radiation-hardened Space-qualified RF ASICs. Target customers: Aerospace and professional GNSS industry. Saphyrion is a privately owned commercial company focuses on research and development at both semiconductor and board level designs, as well as software development. The head office is in Lugano, southern Switzerland. The business of Saphyrion is centere

SIGEDI

France

www.sigedi.fr**Financial Manager**

SIGEDI, has been structured to meet requirements in different metallurgical and mechanical fields, both in general industrial applications and more especially in nuclear power, especially SEVESO classified installations.

SODITECH

France

www.soditech.com**Business Developer**

Since 1990, SODITECH has been designing, manufacturing and integrating Thermal, Electrical and Mechanical elements for satellites such as Space Harnesses, MLI-SLI, SSM, OSR, heaters and other panels equipment (inserts, groundings,...)

SOLAR MEMS

Spain

www.solar-mems.com**Business Development Manager**

Solar MEMS is a company specialized in Microsystems technology (MEMS) and their application to space sun sensors for attitude control of satellites. In addition to sun sensor supplier, our activity includes custom electronic designs, integrated solutions and I/Fs adaptation of micro/nano satellites.

SPACE - DHV TECHNOLOGY

Spain

www.dhvtechnology.com**Managing Director**

DHV Technology Solar panels / arrays for space applications

SPACE IC GMBH

Germany

www.space-ic.com**Project Manager**

The scope of Space IC is the development and the production of ITAR-free radiation-hard analog semiconductor components, such as DC-DC Converter ICs for Point-of-Load applications and Extended Common Mode LVDS Receiver and Driver ICs for SpaceWire and other robust high-speed serial data interfaces.

SUPEROX LLC

 **Russia** www.superox.ru/en/
Manager

SuperOx company was founded in 2006 with a goal to establish production of textured high-temperature superconductor coatings on metal substrates – second generation high temperature superconducting tapes (2G HTS).

SURREY NANOSYSTEMS

 **United Kingdom** www.surreynanosystems.com
Business Development Director

Surrey NanoSystems are the world leading developer and manufacturer of a range of ultra high emissivity black coatings, including the world's darkest materials

SWISSTO12 SA

 **Switzerland** www.swisstto12.ch
Ceo

SWISSTO12 supplies next generation RF antenna, waveguide and filter components. Products are produced by Additive Manufacturing thus providing disruptive price, weight, performance and integration benefits.

SYENTEC

 **Austria** www.syentec.at
Managing Director

Extensive and complex technical projects. As a development partner, we work with you to implement your ideas - from development planning, through product and process development to technical documentation.

T

TAMURA - ELSOLD GMBH & CO. KG INNOVATIVE LOTPRODUKTE

 **Germany** www.elsold.com
Key Account Manager

ELSOLD® is a guarantee of premium quality that satisfies the finest connection geometries of current building components and enables optimum solderability and great recyclability.

TAOGLAS LTD

 **United Kingdom** www.taoglas.com
Sales Manager

Supplier of antenna solutions for the ground side of satellite and terrestrial services including Inmarsat, Iridium, Globalstar, GNSS, LTE/Cellular, ISM and custom needs.

TE CONNECTIVITY - TE CONNECTIVITY DEUTSCH

 **France** www.te.com
Key Account Manager Europe

Manufacturer of InterConnect components: connectors, wire.

TEKSPAN SPA

 **Italy** www.tekspan.it
Business Unit Manager

Spacecraft, Vehicles, Structure, Bracketry and outfitting complements. Manufacturing and sale of high technical, Very light closed cell foam, rubber and plastic material. Study and co-engineering of customized and personalized package for devices.

TENCATE ADVANCED COMPOSITES

 **United Kingdom** www.tencateadvancedcomposites.com
Sales Manager Uk

Ten Cate Advanced Composites are an industry leader in the development and production of advanced composite materials. With production facilities and operations in Europe and North America, Ten Cate manufactures a market leading range of thermo plastic and thermoset prepregs that are incorporated into a variety of expanding market segments including aerospace structures, aircraft interiors, space/satellites, randomes and composite tooling.

THERMACORE INC. - AAVID THERMACORE EUROPE LTD

 **United Kingdom** www.thermacore.com
Sales & Marketing Manager

Thermacore are experts in thermal management of high end electronics and offer in-house design, manufacture and test of thermal technologies including heat pipes, high conductivity encapsulated graphite spreaders and liquid cold plates.

TKI-FERRIT

 **Hungary** www.tki-ferrit.hu
Sales Representative

We offer circulators & isolators up to 40 GHz in waveguide, 18 GHz in stripline & 15 GHz in micro-strip construction. Since ferrite is made in-house, we are in a position to offer tailor made product solutions in response to customer demands, besides catalogue types.

TOULOUSE BUSINESS SCHOOL

 **France** www.tbs-education.fr
Aerospace Mba Director

Toulouse Business School, formerly Groupe ESC Toulouse, is a French business school founded in 1903 by the Chamber of Commerce and Industry of Toulouse.

TRIUM POWER (MEMBRE OPTICS VALLEY)

 **France** www.triumpower.com
Project Manager

TRIUM POWER is a solutions provider specializing in energy conversion, connectivity and systems. Electrical, electronic and optronic componentst.

TRONICO

 France www.tronico-alcen.com

Key Account Manager

TRONICO is a major supplier of OEM's electronic systems for Aeronautic, Defence & Security and Space.

In addition to its core EMS (Electronic Manufacturing Services) business, TRONICO has also established itself as an EDS provider (Electronic Design Services) in the development of complex electronically dominant systems.

TTS S.R.O.

 Czech Republic www.tts-co.eu

Ceo

Thin film metallization. Development and realisation of custom-made thin film systems.
Production of sensors for trace moisture detection.

U

UNITES SYSTEMS A.S.

 Czech Republic www.unites-systems.com

Sales Manager

UNITES Systems focuses on production and development of test systems for semiconductors mainly in aerospace industry.

V

VACTRON

 Spain www.vac-tron.es

General Manager

Manufacturers of hermetic components glass to metal seals (GTMS) for harsh environments. Be produce bespoke for several sectors, Avionics, aerospace, medical, industry, automobile, etc. We have all the homologations needed.

W

WATT & WELL

 France www.wattandwell.com/fr

General Director

Watt&Well supports the designers of technological systems exposed to the highest levels of stress by creating and manufacturing customizable products based on rugged, reliable techniques for the most demanding industries: aerospace, oil&gas, industrial applications and automotive.

WEST END

 The Netherlands www.westendbv.nl

General Manager

West End delivers the basis for innovation with it's special mechanical equipment. Our broad manufacturing expertise is combined with our inhouse (FEM-based) engineering. Specialities are mechanical ground support test-equipment, including vacuum and cryogenic applications.

Delegations, Clusters,... :

A

ASTECH PARIS REGION

 France www.pole-astech.org

Director

The aerospace cluster in ASTech Paris Region, the first pool of jobs in France in the fields of Aeronautics, Space and Embedded Systems brings together more than 100 000 people and includes the majority of jobs in French R & D.

C

CENTRO ESTERO PER L'INTERNAZIONALIZZAZIONE - PIEMONTE AGENCY

 Italy www.centroestero.org

Aerospace Manager

Piemonte/North-west of Italy is home to Space technological and competitive supply chains which share innovations with international players; the cluster welcome foreign players to work together in their technical working groups to develop common projects.
